

Bradway Primary School

E-Safety Policy

Reviewed May 2015

E-Safety Policy

E-Safety encompasses Internet technologies and electronic communications such as mobile phones and wireless technology. It highlights the need to educate children and young people about the benefits and risks of using new technology and provides safeguards and awareness for users to enable them to control their online experiences.

The school's e-safety policy will operate in conjunction with other policies including those for Behaviour, Anti - Bullying, Child Protection, Curriculum and Data Protection.

Good Habits

E-Safety depends on effective practice at a number of levels:

- Responsible ICT use by all staff and pupils; encouraged by education and made explicit through published policies.
- Sound implementation of e-safety policy in both administration and curriculum, including secure school network design and use.
- Safe and secure broadband from the Yorkshire and Humberside Grid for Learning including the effective management of content filtering.

School e-Safety Policy

The school's e-Safety coordinator is Annabel Wales. In many cases this will be the Designated Child Protection Officer as the roles overlap.

Our e-Safety Policy has been written by the school, building on the Sheffield Children and Young Peoples' Directorate and Government guidance. It has been agreed by the Senior Leadership Team (SLT) and seen by governors.

The e-Safety Policy will be reviewed annually. This policy will next be reviewed in May 2016

Why is Internet Use Important?

The purpose of Internet use in school is to raise educational standards, to promote pupil achievement, to support the professional work of staff and to enhance the school's management information and administration systems.

Internet use is part of the statutory curriculum and a necessary tool for learning. It is an essential element in 21st century life, for education, business and social interaction. Access to the Internet is therefore an entitlement for pupils who show a responsible and mature approach to its use. Our school has a duty to provide pupils with quality Internet access

Pupils will use the Internet outside school and will need to learn how to evaluate Internet information and to take care of their own safety and security.

How does Internet Use Benefit Education?

Benefits of using the Internet in education include:

- access to world-wide educational resources including museums and art galleries;
- educational and cultural exchanges between pupils world-wide;
- access to experts in many fields for pupils and staff;
- professional development for staff through access to national developments, educational materials and effective curriculum practice;
- collaboration across support services and professional associations;
- improved access to technical support including remote management of networks and automatic system updates;
- exchange of curriculum and administration data with the Local Authority and DfE;
- access to learning wherever and whenever convenient.

How can Internet Use Enhance Learning?

- The school Internet access will be designed expressly for pupil use and includes filtering appropriate to the age of pupils.
- Pupils will be taught what Internet use is acceptable and what is not and given clear objectives for Internet use.
- Internet access will be planned to enrich and extend learning activities.
- Staff should guide pupils in on-line activities that will support learning outcomes planned for the pupils' age and maturity.
- Pupils will be educated in the effective use of the Internet in research, including the skills of knowledge location, retrieval and evaluation.
- Pupils will be taught specific age related e-safety units of work in each year group which teach them the importance of staying safe online.

Authorised Internet Access

- The school will maintain a current record of all staff and pupils who are granted Internet access.
- All staff must read and sign the 'Acceptable ICT Use Agreement' before using any school ICT resource.
- Parents will be informed that pupils will be provided with supervised Internet access.
- Parents will be asked to sign and return a consent form for pupil access.

World Wide Web

- If staff or pupils discover unsuitable sites, the URL (address), time, content must be reported to the Local Authority helpdesk via the e-safety coordinator or network manager (technician).
- School will ensure that the use of Internet derived materials by pupils and staff complies with copyright law.
- Pupils should be taught to be critically aware of the materials they are shown and how to validate information before accepting its accuracy.

Email

- Whole class or group e-mail addresses should be used in school
- Pupils must immediately tell a teacher if they receive offensive e-mail.
- Pupils must not reveal personal details of themselves or others in e-mail communication, or arrange to meet anyone without specific permission.
- Access in school to external personal e-mail accounts may be blocked.
- E-mail sent to external organisations should be written carefully and authorised before sending, in the same way as a letter written on school headed paper.
- The forwarding of chain letters is not permitted.

Social Networking

- Schools should block/filter access to social networking sites and newsgroups unless a specific use is approved.
- Pupils will be advised never to give out personal details of any kind which may identify them or their location
- Pupils should be advised not to place personal photos on any social network space.
- Pupils should be advised on security and encouraged to set passwords, deny access to unknown individuals and instructed how to block unwanted communications. Pupils should be encouraged to invite known friends only and deny access to others.

Filtering

The school will work in partnership with the Local Authority and the Internet Service Provider to ensure filtering systems are as effective as possible.

Video Conferencing

- IP videoconferencing should use the educational broadband network to ensure quality of service and security rather than the Internet.
- Pupils should ask permission from the supervising teacher before making or answering a videoconference call.
- Videoconferencing will be appropriately supervised for the pupils' age.

Managing Emerging Technologies and Mobile Phones

- Emerging technologies will be examined for educational benefit and a risk assessment will be carried out before use in school is allowed.
- Mobile phones will not be used for personal use during lessons or formal school time. The sending of abusive or inappropriate text messages is forbidden. See Mobile Phone Policy
- Staff will be issued with a school phone where contact with pupils is required.

Published Content and the School Web Site

- The contact details on the Web site should be the school address, e-mail and telephone number. Staff or pupils personal information will not be published.
- The headteacher or nominee will take overall editorial responsibility and ensure that content is accurate and appropriate.

Publishing Pupils' Images and Work

- Photographs that include pupils will be selected carefully and will not enable individual pupils to be clearly identified by name.
- Pupils' full names will not be used anywhere on the website or blog, particularly in association with photographs.
- Written permission from parents or carers will be obtained before photographs of pupils are published on the school Website.
- Work can only be published with the permission of the pupil and parents.

Information System Security

- School ICT systems capacity and security will be reviewed regularly.
- Virus protection will be installed and updated regularly.
- Security strategies will be discussed with the Local Authority.

Protecting Personal Data

Personal data will be recorded, processed, transferred and made available according to the Data Protection Act 1998.

Assessing Risks

- The school will take all reasonable precautions to prevent access to inappropriate material. However, due to the international scale and linked Internet content, it is not possible to guarantee that unsuitable material will never appear on a school computer. Neither the school nor Sheffield City Council can accept liability for the material accessed, or any consequences of Internet access.
- The school should audit ICT use to establish if the e-safety policy is adequate and that the implementation of the e-safety policy is appropriate.

Handling e-safety Complaints

- Complaints of Internet misuse will be dealt with by a senior member of staff and the ICT co-ordinator
- Any complaint about staff misuse must be referred to the headteacher.
- Complaints of a child protection nature must be dealt with in accordance with school child protection procedures.
- Pupils and parents will be informed of the complaints procedure.
- Discussions will be held with the Police Youth Crime Reduction Officer to establish procedures for handling potentially illegal issues.

Communication of Policy

Pupils

- Rules for Internet access will be posted in all networked rooms.
- Pupils will be informed that Internet use will be monitored.
- All pupils will sign AUP policy

Staff

- All staff will be given the School e-Safety Policy and its importance explained.
- Staff should be aware that Internet traffic can be monitored and traced to the individual user. Discretion and professional conduct is essential.
- All staff must read and sign AUP policy

Parents

- Parents' attention will be drawn to the School e-Safety Policy via the school prospectus and on the school website.

Flowchart for responding to e-safety incidents in school

Appendix B

Key Stage 1

Think then Click

These rules help us to stay safe on the Internet

We only use the internet when an adult is with us

We can click on the buttons or links when we know what they do.

We can search the Internet with an adult.

We always ask if we get lost on the Internet.

We can send and open emails together.

We can write polite and friendly emails to people that we know.

Key Stage 2

Think then Click

e-Safety Rules for Key Stage 2

- We ask permission before using the Internet.
- We only use websites that an adult has chosen.
- We tell an adult if we see anything we are uncomfortable with.
- We immediately close any webpage we not sure about.
- We only e-mail people an adult has approved.
- We send e-mails that are polite and friendly.
- We never give out personal information or passwords.
- We never arrange to meet anyone we don't know.
- We do not open e-mails sent by anyone we don't know.
- We do not use Internet chat rooms.

Bradway Primary School

e-Safety Rules

These e-Safety Rules help to protect pupils and the school by describing acceptable and unacceptable computer use.

- The school owns the computer network and can set rules for its use.
- It is a criminal offence to use a computer or network for a purpose not permitted by the school.
- Irresponsible use may result in the loss of network or Internet access.
- Network access must be made via the user's authorised account and password, which must not be given to any other person.
- All network and Internet use must be appropriate to education.
- Copyright and intellectual property rights must be respected.
- Messages shall be written carefully and politely, particularly as email could be forwarded to unintended readers.
- Anonymous messages and chain letters are not permitted.
- Users must take care not to reveal personal information through email, personal publishing, blogs or messaging.
- The school ICT systems may not be used for private purposes, unless the head teacher has given specific permission.
- Use for personal financial gain, gambling, political activity, advertising or illegal purposes is not permitted.

The school may exercise its right to monitor the use of the school's computer systems, including access to web-sites, the interception of e-mail and the deletion of inappropriate materials where it believes unauthorised use of the school's computer system may be taking place, or the system may be being used for criminal purposes or for storing unauthorised or unlawful text, imagery or sound.

Appendix C

Acceptable Use Agreement: Staff, Governors and Visitors

ICT (including data) and the related technologies such as e-mail, the internet and mobile devices are an expected part of our daily working life in school. This policy is designed to ensure that all staff are aware of their professional responsibilities when using any form of ICT. All staff are expected to sign this policy and adhere at all times to its contents. Any concerns or clarification should be discussed with Daniel Stones, the school eSafety coordinator or any member of the Senior Leadership Team.

- I will only use the school's email / Internet / Intranet / Learning Platform and any related technologies for professional purposes or for uses deemed 'reasonable' by the Head or Governing Body.
- I will comply with the ICT system security and not disclose any passwords provided to me by the school or other related authorities
- I will ensure that all professional electronic communications are compatible with my professional role.
- I will not give out my own personal details, such as mobile phone number and personal e-mail address, to pupils and parents.
- I will only use the approved, secure e-mail system(s) for any school business.
- I will ensure that personal data (such as data held on MIS software) is kept secure and is used appropriately, whether in school, taken off the school premises or accessed remotely. Personal or sensitive data taken off site must be encrypted.
- I will not install any hardware or software without permission of the systems administrator and IT subject leader.
- I will not browse, download, upload or distribute any material that could be considered offensive, illegal or discriminatory.
- Images of pupils and/ or staff will only be taken, stored and used for professional purposes inline with school policy and with written consent of the parent, carer or staff member. Images will not be distributed outside the school network without the permission of the parent/ carer, member of staff or Headteacher.
- I understand that all my use of the Internet and other related technologies can be monitored and logged and can be made available, on request, to the Headteacher.
- I will support the school approach to online safety and not deliberately upload or add any images, video, sounds or text that could upset or offend any member of the school community
- I will respect copyright and intellectual property rights.
- I will ensure that my online activity, both in school and outside school, will not bring my professional role into disrepute.
- I will support and promote the school's e-Safety and Data Security policies and help pupils to be safe and responsible in their use of ICT and related technologies.
- I understand this forms part of the terms and conditions set out in my contract of employment.

User Signature

I agree to follow this code of conduct and to support the safe and secure use of ICT throughout the school.
